Approval memo

From: Morgan Tate <mtate@ssf.example>
To: Rowan Ellery <rellery@synthetic-u.example>
Date: April 14, 2026

After reviewing the justification, the program office approves the reallocation of $6,500 from participant support to materials and supplies for award SYN-2025-0117. The reallocation is effective immediately and doesn't change the total award amount.

This approval is specific to the "field sampling expansion" described in your request of March 30, 2026. It doesn't authorize any other rebudgeting, and notwithstanding this approval the institution remains responsible for demonstrating that every charge is allowable, allocable and reasonable under the applicable cost principles.

Specifically, the office finds the proposed configuration of fieldwork instrumentation financially justifiable. Undocumented reimbursement requests will be disallowed.

Please keep this memo with the award file — it will be needed at closeout.

Category	Before	After
Participant support	$20,000	$13,500
Materials and supplies	$40,000	$46,500
